President's Corner

Greetings from your Grand President!

The 2017-2018 academic year was very successful for Kappa Epsilon. Over the past year we have completed the pilot for our Regional Retreat program. We had an overwhelming amount of members interested in this program at convention, we selected one region to pilot the program, however we had four regions successfully pilot the program this year. Meetings were held in Regions A, B, C, and F, with the following chapters serving as host chapters: Lambda, Beta Tau, Psi, and Omega. In May 2018 the national fraternity went live with both our newly re-mastered website for both the public and members only domain. When you login, you will see the fraternity website has been moved to a new platform on MemberClicks. We hope this new change will help facilitate form submission for each chapter and communication amongst the members of our organization. Look for additional material and enhancements to the website over the next year. We also hosted one of several alumni socials this past June in Charlotte, NC with the plans to host two more events this coming year. We have also completed our BrightPink campaign this past year and exceeded our fundraising goal of \$25,000. I am pleased to announce the fraternity has raised \$26,714 for BrightPink to help support their BrightenUp workshops. Finally I am pleased to recognize all of our award winners from the past academic year:

- Zaneera Hassan, 2018 Nellie Wakeman Fellowship
- Petra Schultz, 2018 Career Achievement Award
- Kim Broedel-Zaugg, 2018 KE Merck Vanguard Award
- Anh Tran, 2018 Linda Rodgers Award

2017-2019 Grand Council Midterm Meeting, Charleston, SC

Top (L to R): Nikkina Hankins, Patrick Campbell, Denise Schultz, Erin Lingenfelter, Salvatore Bottiglieri, Cayla Marconi, Morgan Fleming

Bottom (L to R): Lauren Clouse, Sara Snow, Christine Kane

While many of you were on summer break, Grand Council met for our biannual midterm meeting at the Francis Marion Hotel in Charleston, SC. The meeting was held over two days on Friday & Saturday, August 3rd & 4th. Our meeting had a packed agenda and we discussed topics related to upcoming projects and initiatives that we would like to move forward with over the next year. Some key topics that were discussed included:

- Convention planning for 2019, including speakers, off site events, and branding.
- Website enhancements and additional changes to complete over the next year.
- Regional Retreat Program and future directions.
- National mentorship program, with the hope to launch our new platform on the member's page at Convention 2019.
- Grand Council chapter visitations for the coming year.
- Planning for 2019-2021 Budget and upcoming 100 Year celebration activities.

continue on the next page...

On a more serious note, the national fraternity has decided to launch an assessment for all of its members. In order to meet the rising costs associated with doing business the office has recognized a significant financial deficit related to the rising costs of our insurance premiums. We are asking that each chapter collect an additional \$20 per collegiate member and submit this fee with their October dues. I want you all to know this was a very difficult yet necessary decision that Grand Council had to make in order to meet the financial needs of our organization. We anticipate further discussion of our dues structure at national convention in 2019.

As we look ahead to the 2018-2019 academic year I have high aspirations and goals for our Grand Council. We hope to host at least two more alumni social events in two cities over the next year to help re-engage and reconnect alumni around the country. We will put forward a lot of time and effort on continued developments and enhancements to both our public and members only sections of the national website. One of the major enhancements we would like to launch is a mentorship platform on the members only page that would allow for discussion boards amongst KE members around the country on focused topics related to pharmacy and career development. Stay tuned on more developments related to our mentorship program. We are also working on officer transition tools for our chapters to be presented at convention.

Finally, please look for the 2019 Convention website, our goal is to have the site available to all users by November 2018. The page will have all of the details you will need about the meeting, with an agenda overview, speaker information as well as travel, hotel and things to do in Charleston. The site will allow you to register for the meeting, book your hotel room, and order your convention T-shirt. Below are the 2019 Convention registration rates:

- Alumni (Early Bird): \$475
- Alumni (General) \$500
- Collegiate (Early Bird) \$400
- Collegiate (General) \$425

Please note that all rooms on the hotel room block will fit up to four guests at no added costs for quad occupancy. I do want to remind everyone that the hotel is part of The Historic Hotels of America, and was built in 1924. Due to the age of the building each hotel room can be configured differently with various size bathrooms and bedroom spaces. Grand Council is looking forward to seeing you all at the 2019 National Convention at the Francis Marion Hotel, in Charleston, SC from July 31-August 3, 2019. I know you all will love this city for the many reasons I have continued to visit including it's food, attractions, beaches, night life, and shopping!

In the BOND,
Salvatore M Bottiglieri, PharmD, BCOP
Kappa Epsilon Grand President

Chapter Updates

ALPHA

University of Minnesota College of Pharmacy | Minneapolis, MN

As the Alpha chapter, we are one of three professional pharmacy fraternities on campus, and have established ourselves in the historical archives of the University of Minnesota College of Pharmacy. Our membership is small yet comprised of students with diverse interests and experiences. We have enjoyed creating opportunities for community outreach and education, such as our Bright Pink Bake Sale. During this event, we provided awareness and education about breast and ovarian cancers to women locally. On the Twin Cities campus, we have built a relationship with The Theresa Living Center in St. Paul, Minnesota to provide pharmacy assistance to women and children transitioning from homelessness. We also schedule two dates per semester to volunteer at places such as Feed My Starving Children and Second Harvest Heartland. The 2017 – 2018 academic year was rewarding for our Alpha chapter members, and we look forward to future projects and events throughout the 2018-2019 academic year!

October 2017 – Second Harvest Heartland

Kappa Epsilon members volunteered time to assist in the packaging of dry-goods and food to help reduce hunger in our local communities.

February 2018 – Bright Pink Bake Sale

Kappa Epsilon sold homemade baked goods in the College of Pharmacy lounge to raise money for Bright Pink. Proceeds from this sale, along with our other fundraiser contributions, will be donated to our partner organization Bright Pink, so they can continue their mission to help educate women about breast and ovarian cancer.

Chapter Updates

LAMBDA

University of North Carolina at Chapel Hill | Chapel Hill, NC

Every year the Lambda Chapter at the University of North Carolina at Chapel Hill teams up with the Carolina Association for Pharmacy Students (CAPS) to put on the Red Dress Fashion Show to benefit the American Heart Association (AHA). In order to raise money, we sell tickets to the event to family, friends, faculty, and other students, as well as sell raffle tickets during the event. Since starting this event, we have built some great relationships with local businesses who are willing to donate items and/or gift cards for our raffle. Our sisters and mister love this event because we are able to shop around at local boutiques to find outfits to borrow for the fashion show. Our wonderful advisor, Dr. Heidi Anksorus, and a beloved alumni and professor, Dr. Jo Ellen Rodgers, serve as emcees for the event every year. KE and the school at large have a wonderful time at the event, and we love that it allows us to raise money for the AHA. This year we were able to donate \$851 to the AHA! It is great to team up with other organizations in order to raise money for more than just our main philanthropies of breast and ovarian cancer. This event also brings a giant sense of community to Chapel Hill. People from all different pharmacy organizations and fraternities show support at this event, and contribute to the event's success. Our recruitment/special projects co-chairs put a lot into making the Red Dress Fashion Show a successful event every year.

This photo shows (from left to right) our wonderful emcees, Dr. Jo Ellen Rodgers and Dr. Heidi Anksorus, as well as our recruitment/special projects co-chairs, Alexandra Guthart and Yuhong Liu.

Chapter Updates

XI

University of Texas at Austin | Austin, TX

Kappa Epsilon Xi Chapter at the University of Texas at Austin had an amazing year filled with service events, two events where we educated people about their health, a new scavenger hunt for our new members, a bunch of fun socials, and a few fundraising opportunities for BrightPink. We managed to induct eleven new members this school year and raise close to four-hundred dollars for BrightPink.

Our service events this year included educating elementary school children with our chapter initiative of poison prevention awareness. We presented a Yum/Yuck poster during Longhorn Halloween, ExploreUT, and an elementary school science night. Longhorn Halloween and ExploreUT are events that UT Austin puts on that give organizations a chance to educate the younger population. We also volunteered at the ALS walk where we helped pass out t-shirts.

Kappa Epsilon Xi chapter participated in two community health events with Project Collaborate at the Foundation Community Health Fair as well as Vestido Rojo. Both of these events were in conjunction with another organization, Hispanic Association of Pharmacists (HAP), and included sending a group of student pharmacists from both organizations to screen patient's glucose, blood pressure, and BMI. We referred patients that had high values to the pharmacists and helped educate the public about their readings. Through these efforts, we helped over two-hundred individuals!

XI

University of Texas at Austin | Austin, TX

This year the Xi chapter implemented a scavenger hunt for the new members and with each clue they found, they learned more about Kappa Epsilon's history. After the new members were initiated, and we hosted our semi-annual banquet. In the fall semester we had nine initiates while in the spring we had two. We plan to continue this scavenger hunt in the years to come.

As for socials, we met up with a few KE alumni at planned alumni dinners, bouldered together, had a pizza social, played games at Dave & Busters, visited the Graffiti Park in Austin, went to a frozen yogurt shop, hosted a studying social at a coffee shop named MonkeyNest, and joined each other at two banquets. We had many opportunities to get to know our fellow members, try new things, and see new places around Austin.

We fundraised hundreds of dollars by hosting multiple t-shirt decorating sessions in October for breast cancer awareness, as well as during our new member bake sale. We also teamed up with another organization in pharmacy school, Christian Pharmacists Fellowship International (CPFI), to raise money through donations and a bake sale to give comfort kits to SAFE place. SAFE place is a clinic that offers 24/7 medical care and forensic exams to sexually assaulted individuals.

Throughout these events our chapter has grown closer and helped the community at large! We plan to increase the number of events as well as do more ovarian cancer and breast cancer awareness activities in the upcoming year.

PI

Purdue University | West Lafayette, IN

Hello from Indiana! The Pi Chapter of Kappa Epsilon is located on Purdue University's campus in West Lafayette, Indiana. We had a great spring semester that included a wonderful initiation ceremony and a fantastic Founder's Day celebration. Our Founder's Day celebration had a theme titled "Growing the Future Rooted in the Past." Along with the theme, the attendees all received a flower pot and were able to decorate the flower pot with various painting supplies for a fun arts and crafts activity before the upcoming stressful finals. Most importantly, we had one of our most esteemed alumnae come and speak, Krissy Kane, who is the current VP Collegiate Development for Grand Council. She talked about her experience in the Pi Chapter. She relayed the great memories and opportunities that have happened because of her Kappa Epsilon involvement. We are always very excited to have Krissy come back to speak with us. We were also very blessed to have two other alumni join us for the celebration, Jane and Margaret! In 2017, the Pi Chapter was awarded the Alumni Outreach Award, so we are gracious to our alumni for their leadership and are looking forward to continued alumni involvement.

With such a spectacular spring semester, we are extremely excited for our fall semester. The Pi Chapter started on Purdue's campus in 1948. This fall marks Pi Chapters 70th Anniversary. The college of pharmacy is graciously organizing a large dinner for this anniversary. Pi Chapter alumni are coming to celebrate this momentous occasion with us in November. We are currently working on rummaging through the years of scrapbooks that our alumni created to make a slideshow to enjoy during the dinner. It is very neat to see how the Pi Chapter has operated in past decades!

Chapter Updates

PSI

Ohio Northern University | Ada, OH

Hello to all of Kappa Epsilon from our little corner of Northwest Ohio.

The past year has been especially busy for us here at Ohio Northern. After being challenged to increase fundraising for Bright Pink, our exec members came up with some really fun and unconventional ways (for us, at least!) to get the donations flowing! Last fall we had our very first teal bake sale. Members donated a huge assortment of baked goods – ranging from cake pops to teal fudge, and we set up shop in the pharmacy building! Likewise, in the spring, we hosted our very first teal meal with teal colored pasta, alfredo, chicken, baked goods, and punch! Traditionally, our chapter has focused a lot on breast cancer awareness, however we have been trying to weave in much more ovarian cancer awareness as well – hence the teal!

While there is always a lot going on at our chapter, I would like to take a moment to talk about our experience with the first annual regional retreat in April of this year. Psi was selected to be the first to host the Region C regional retreat, and I believe that we were also the first to go live with it! Although we felt as if we were improvising during the planning process, it was such an honor to be the first in our region, and kind of fun to figure it out as we went! The weekend kicked off with Erin Lingenfelter arriving on campus. Before festivities began, we gave her a tour of our pharmacy building. We are proud to call her a polar bear alumni of both Ohio Northern University and Psi chapter. That evening we hosted a “Mocktail Party” – where members of our chapter were able to meet and spend some time with Erin and each other. The retreat began in the early afternoon on Saturday and ran through

continue on the next page...

Breast and ovarian cancer awareness themed cake pops donated and sold at Psi Chapter's first ever teal bake sale.

Continued...

PSI

Ohio Northern University | Ada, OH

Sunday morning. We met delegates from the Pi, Rho, Alpha Phi, Beta Zeta, and Beta Pi Chapters! The “business” side of the retreat consisted of different presentations from attending chapters on various aspects of KE – social, service, national projects, etc. Each presentation typically also had a discussion period afterwards. The “social” side of the retreat was a little more challenging for us to plan. If you’ve ever been to Ada, Ohio, or any small town in Ohio, for that matter, you may know that there’s not as much to do as larger towns. Thankfully, our six lane bowling alley was able to squeeze us in, and the group headed over for some jalapeños (Ada version of chipotle) and bowling! Overall, hosting the regional retreat was a success. We learned a lot, had a lot of fun, and most importantly, made bonds with members from other chapters!

Delegates from Psi, Pi, Rho, Alpha Phi, Beta Zeta, Beta Pi enjoy a bowling break during regional retreat at Ohio Northern University!

Chapter Updates

ALPHA BETA

Southwestern Oklahoma State University | Weatherford, OK

Hey y'all! We the Alpha Beta Chapter from Southwestern Oklahoma State University College of Pharmacy in Weatherford, Oklahoma. First things first, we joyfully welcomed 10 new members into our chapter last year! Our new members participated in a service project that collected clothing items for a local non-profit hospital.

Our chapter goals include promoting philanthropy amongst our members. Usually in the spring semesters, we raise money to fund-raise for Relay for Life by selling gourmet donuts, hosting a pancake dinner, and flocking (putting plastic lawn flamingos in people's yards for ransom). This spring, we found out that one of our members on rotations was in a time of need due to a medical family emergency. So we concentrated our efforts to financially help with medical expenses.

We also like to stay active in the community and incorporate the public for our philanthropy project. For Bright Pink, we were able to raise \$370 by hosting a chili supper that was open to the public and selling t-shirts. We host a Halloween gathering for all pharmacy students called "Apothescary" each year to promote comradery amongst the college. We participated in our annual flag football game where we joined with a fellow fraternity Kappa Psi

and competed against Phi Delta Chi. The earnings from concessions are donated to the winner's charity of choice. Last year, we won and were able to donate those earnings to Bright Pink.

We engage in many social events throughout the year including our Thanksgiving Dinner, a chapter vs. faculty volleyball game, and a Galentine's celebration. This last spring we held our annual Founder's Day event with a dinner and a presentation of awards. Several alumnae participated, including our guest speaker, who is a fellow KE and faculty member.

We are currently gearing up to host our annual PharmCORP event. During PharmCORP, we have members volunteering in various labs throughout the college of pharmacy including: compounding, dispensing, and IV preparation. In these labs, our members assist the students in different activities pertaining to pharmacy practice. Last year, we hosted a record breaking number of participants that came in from all parts of the state. This year, we are hoping to surpass that and introduce even more students to the profession of pharmacy!

We look forward to seeing everyone in Charleston in 2019!

Members Meagan Holley and Claire Bullard help PharmCORP participants in the clinical skills lab workshop.

ALPHA THETA

University of Arkansas for Medical Sciences | Little Rock, AR

Last August, the Alpha Theta Chapter attended the Kappa Epsilon National Convention in New Orleans, Louisiana. We had a wonderful time getting to explore this unique city and learn even more about our organization and our future profession. We got to explore Jackson Square, eat lots of Cajun food, and take a boat tour around the city. At the meeting, our chapter was awarded Outstanding Chapter for 2015-2016. Our advisor, Dr. Melanie Reinhardt, was also awarded the 2017 Unicorn Award, which recognizes her contributions to our organization. We are extremely proud of all of our members and our advisors for their wonderful work to help our chapter shine. Our chapter learned so much, found great networking opportunities, and got to visit a beautiful city.

ALPHA THETA

University of Arkansas for Medical Sciences | Little Rock, AR

Throughout the 2017-2018 year, our chapter threw fun socials and fundraisers like Taco Tuesday, a Christmas ornament exchange, and Galentine's Day. For our recruitment event, we had a Pups and Pops social at a dog park. It was a great way to break the ice and get to know prospective members. Our biggest philanthropy event each year are the Pharmacy Olympics. This is a competition that allows UAMS pharmacy students and their friends the opportunity to compete against each other in fun events like a gowning and garbing obstacle course. Proceeds from this event went to support ovarian cancer research. The top three teams win prizes and all teams involved have a good time. Plus, it's a great stress relief from our busy school schedules. We also have a Bright Pink presentation each October to educate our fellow classmates on risk factors and symptoms of breast and ovarian cancer. Teal Light Night, hosted each year by the Clinton Library in Little Rock, is a evening for patients and their families who have been affected by ovarian cancer. As a chapter, we are lucky enough to be able to contribute. All in all, Alpha Theta has had a great year, and we look forward to another!

ALPHA LAMBDA

University of South Carolina, College of Pharmacy | Columbia, SC

Greetings from the Alpha Lambda Chapter at the University of South Carolina, College of Pharmacy! The Alpha Lambda Chapter puts together several service events throughout the year to raise awareness for Breast & Ovarian Cancer. In September, we participate in a 'Butterfly Release' event hosted by the South Carolina Ovarian Cancer Coalition. Our members help hand out pamphlets about ovarian cancer to passer-bys and listen to several speakers. At the end of the event, each person releases a butterfly to honor of a lost life, a current fighter or survivor of this disease. In October, our chapter holds t-shirt fundraisers, marketing "Cocky For A Cure" around the University of South Carolina's campus, with support from our favorite mascot, 'Cocky'. Last fall, the Alpha Lambda chapter was lucky enough to host 'Brighten Up!' workshop with a Bright Pink representative on our campus. We also participate in community service projects in the surrounding Columbia area. This year's favorite was Night to Shine, a joy prom for children and adults with special needs, hosted by the Tim Tebow Foundation. The Alpha Lambda chapter took on the role of "food service" and brought food and drinks to all of the guests throughout the night.

After we serve, our sisters like to relax and create life-long connections with our sisters at various social events! We host GNO dinners, workout classes, TV viewing parties and more! Our favorite socials were Friendsgiving and Galentine's Day!

ALPHA OMICRON

St. Louis College of Pharmacy | St. Louis, MO

Greetings from the Kappa Epsilon Alpha Omicron chapter at St. Louis College of Pharmacy in St. Louis, MO. We currently have 65 active members and we are looking forward to welcoming new members this fall.

St. Louis College of Pharmacy has transitioned into a seven year program giving students the opportunity to earn a bachelor's degree, as well as a Pharm.D. This school year, the college has expanded its bachelor's programs to include a bachelor of science in biomedical studies, pharmaceutical chemistry, and pharmaceutical sciences. The school is also offering a bachelor of arts in global health and medical humanities. With these new bachelor degree options, it allows students to tailor their education to their career goals.

This past year, St. Louis College of Pharmacy opened up a brand new state of the art recreation and student life building, with a 220-bed residence hall and new dining facilities. The building also includes a recreational center equipped with a competitive gymnasium, intramural gymnasium, a fitness center, and the largest indoor track in the state of Missouri.

During the 2017-2018 school year, we continued to expand our ovarian cancer awareness week in September. The chapter sold welcome bags for incoming freshman, which were filled with all the essentials that a freshman might forget on move-in day, to

help raise money for Bright Pink. Some other activities of the awareness week included, a school-wide corn hole tournament and a walking taco sale to also help raise money for Bright Pink. The chapter invited an ovarian cancer nurse and survivor to educate the campus on the risks and early detection of ovarian cancer.

This past spring, we hosted our fourth annual organ donation week, in honor of our late sister Morgan Ciota. During this week we honor Morgan and her passion for organ donation. We informed the campus on the benefits and importance of organ donation and encouraged the campus to sign up to become an organ donor. After the most recent organ donation week, we have expanded the number of students on campus that are organ donors by at least 50.

As our chapter continues to grow each year, we could not be more proud of our strong sisterhood bond and involvement with the campus and the St. Louis area. The Alpha Omicron chapter is excited to see all the opportunities and experiences the 2018-2019 school year will bring!

Chapter Updates

ALPHA PHI

Duquesne University | Pittsburgh, PA

Hello, from the Alpha Phi chapter at Duquesne University in the beautiful city of Pittsburgh, Pennsylvania! Here in the Steel City we have been working very hard over the past few years to increase public knowledge about breast and ovarian cancer. We continue to devote our time year after year, increasing our contributions to breast and ovarian cancer foundations. September and October are our most exciting and busiest months on the “Bluff,” as we have endless events to support women’s health!

As a Catholic university, we strive to let the Spirit guide us in everything that we do. We start the month of October off with a prayer service around one of our fountains on campus, which we dye pink for breast cancer awareness! We coordinate our efforts with a social sorority on campus, Zeta Tau Alpha, as their philanthropy is also breast cancer. A priest from the University Chapel joins us as we say a few prayers that acknowledge health, faith and wellness. Afterwards, we set pink rubber ducks into the fountain. This is always a special event for us, as it is a reminder to the university and the public the importance of breast cancer awareness.

Another event that we participate in with other pharmacy organizations is our annual Duquesne University Health and Wellness fair. All of the pharmacy organizations on campus set up tables downtown in the city and provide health information, screenings to the general public and even Zumba lessons. Our chapter hands out information concerning women’s health as well as pink and teal ribbons for breast

Sisters attending the Duquesne University Health Fair representing Kappa Epsilon and Women's Health, in downtown Pittsburgh.

and ovarian cancer awareness. Most importantly, we educate the public on breast and ovarian cancer signs, symptoms, and screening information, using donations from local health institutions. The fair is a staple event to our University, as we lay down the foundation for a healthy lifestyle with the general public’s best interest.

We continue to kick off the fall semester in such a sweet way with a bake sale for ovarian cancer. During the bake sale, sisters donate and sell baked goods in addition to providing pamphlets to all of our patrons in order to spread awareness of ovarian cancer. Throughout the month of October, we also have a t-shirt sale every Tuesday and Thursday, where we sell our annual design of breast cancer t-shirts. Our National Chairs always create a popular design of incorporating a Pittsburgh theme filled with pink and hope. Both the bake sale and t-shirt sales are very rewarding to us as a chapter, as we donate 100% of our profits to multiple breast and ovarian cancer foundations, both locally and nationally.

ALPHA PHI

Duquesne University | Pittsburgh, PA

While we look forward to these sales year after year, they only prepare our chapter for our most successful event of the year, The Women's Health Luncheon. This luncheon is open to all students, faculty, alumni, friends and family. We take this opportunity to hear from inspiring breast and ovarian cancer survivors. All guests enjoy a buffet style lunch and receive a favor sponsored by Giant Eagle Pharmacy. In addition, there's a Chinese auction and numerous vendors that sell jewelry and makeup. Our event is so meaningful that everyone who attends color coordinates in either pink or teal, as another example of support. All of our profits from the luncheon tickets, Chinese auction, 50/50 raffle and a percentage of the sales from our vendors are 100% contributed to our fundraising for breast and ovarian cancer awareness. We continue to surpass our achievements year after year, that the sisters of our chapter were able to raise a little over \$4,800 to donate to various breast and ovarian cancer foundations last year. This event is so special to us as a chapter of Kappa Epsilon and as young women of pharmacy!

As you can see, the chapter of Alpha Phi treasures this time of year. We flourish as student pharmacists and together as sisters, we are empowered women who continue to support women's health, with the hopes of making a difference in the lives of others.

Chapter Updates

ALPHA PSI

Lloyd L Gregory School of Pharmacy | West Palm Beach, FL

Greetings from sunny West Palm Beach, Florida, home of the Alpha Psi chapter at the Lloyd L Gregory School of Pharmacy. For the 2018-2019 school year, our chapter is looking to recruit new members in order to add to our current 9 active members that we have. Unfortunately, we did not recruit new members during the fall 2018 semester, but we are looking to hold a spring 2019 recruitment rush and highlight our chapter. Our chapter is happy to announce that at the end of the spring 2018 semester, we initiated a new advisor to our chapter who is perfect for the job! He is an oncology pharmacist and we are excited to see what perspective and ideas he has for the chapter. We also want to focus more on our philanthropies of breast and ovarian cancer. Breast cancer awareness in our chapter is promoted through our annual Pink It Out Day. We decorate the lobby of the pharmacy school in pink, bring in food items and drinks that are also pink, and provide information about breast cancer to the student body and faculty. Breast cancer is also promoted through our Mr. Pharmacy event. It is a male pageant competition where we highlight the men in our school, and let them show off in their white coats, perform a talent, and a do small question and answer section. The men wear pink ties and we do a small intermission where we talk about breast cancer and how to get involved. In October 2018 we will be attending the American Cancer Society's Making Strides Against Breast Cancer walk in West Palm Beach. Our chapter will be attending in addition to other students and faculty from the pharmacy school.

Chapter Updates

ALPHA PSI

Lloyd L Gregory School of Pharmacy | West Palm Beach, FL

In January 2019, we will be partnering with the Palm Beach Fire Department and performing pharmacy services such as blood pressure readings, glucose readings, and medication counseling which will collectively be known as a Brown Bag Event. Another pharmacy related event we have participated in is the annual health fair that is put on by the pharmacy school. Our chapter is responsible for heading the booths of both men's and women's health and children's health. We spend time putting together posters and provide education to the community.

The Alpha Psi Chapter is looking forward to expanding our number of active members in the chapter and focusing on being more of a professional organization rather than being the standard definition of a fraternity. We hope to have a successful 2018-2019 school year!

Chapter Updates

BETA MU

University of North Carolina – Asheville Campus | Asheville, NC

Hello from the mountains of Western North Carolina! Beta Mu Chapter is located in beautiful Asheville, North Carolina on the University of North Carolina – Asheville Campus. We are the satellite campus for the University of North Carolina Eshelman School of Pharmacy and feel very fortunate to have a sister campus, Lambda Chapter, in Chapel Hill! The 2017-2018 school year proved to be one of our most challenging and rewarding years yet. We welcomed a bright new class of 15 young men and women to bring our chapter total to about 45 pharmacy students! Throughout the year, we hosted many events, social and philanthropic, and look forward to this next year to come. Part of what is so wonderful about being on a smaller campus is the tight-knit family that we become and the social and professional friendships that emerge between our members, faculty, advisors and local alumni!

Following the tragic loss of one of our members last October, we created new initiatives to support our members on a professional level as well as an emotional one. The Beta Mu Chapter, in conjunction with the Lambda Chapter, strives to begin fundraising for an endowment that will fund student awards, wellness initiatives and honor the memory of our dear friend and colleague.

BETA MU

University of North Carolina – Asheville Campus | Asheville, NC

In March, Beta Mu welcomed a breast cancer survivor to speak at a Brighten Up Workshop hosted by Bright Pink! At this casual dinner, pharmacy students and Kappa Epsilon members learned about Breast Cancer and Ovarian Cancer Awareness initiatives. We learned statistics, prevention tactics, and even social media apps that can help teach and remind women about screening techniques! Some of our smaller fundraising events throughout the year included a Chili Cook-Off, a fitness competition, and a clothing drive for our local homeless shelters.

Also in the Spring, we hosted our most exciting event of the year, Scouting Out Pharmacy! At this event, Girl Scouts from all over North Carolina come to our campus to receive their First Aid badges. During the day, we have fun and exciting activities for the Girl Scouts. Some of these activities include compounding chapstick, taking a virtual tour through an Emergency Department, games like “Is this Candy or Medicine”, and even getting in the back of an ambulance to speak with a real-life EMT! This event is so loved by all of the Girl Scouts that it has become a yearly event that we host and look forward to each fall!

Overall, we have grown exponentially as a chapter, and we are looking forward to new successes and challenges that we will encounter this year!

Peter Thao, current KE President Elect, assists a young Girl Scout in mixing her own compounded chapstick!

Alumni Updates

PHARMACY WOMEN FOR PURDUE

Several Pi alumni were able to attend the spring conference of the Pharmacy Women for Purdue. This event planned by the steering committee is held to support and encourage professional and leadership development through networking opportunities with alumnae'. Thursday night was a dessert reception and speed networking with alumni and pharmacy students. Ann Zehner Angle, amongst other Pi alumni, stated were very impressed with the current Pi student pharmacists. They were knowledgeable and asked pertinent questions concerning their future as pharmacists.

Friday morning began with registration and a buffet breakfast at the Spurgeon section of Mackey arena (BOILER UP!). After being welcomed by Yaman Kaakeh, EACH attendee introduced themselves, their year of graduation and employment. This was a great way to start and many of us in attendance heard names of fellow Boilers we had not seen in a while. CE credits were provided for 2 of the sessions: Gabriela Williams, PharmD, and the team of Will Gwin, RPh and Elizabeth Young, PharmD. Dr. Williams provided a lot of great information on Burnout in Pharmacists, including the use of humor in burnout prevention. Mr. Gwin and Dr. Young spoke on veterinary pharmacy. Purdue is lucky to have one of the few veterinary teaching hospitals with a residency program, and Dr. Young gave a great presentation on animal medications. (Don't give your dog Xylitol or your cat Tylenol!)

PHARMACY WOMEN FOR PURDUE

Other presentations focused on breast cancer and treatments by a cancer survivor and financial planning. Key points from these talks included:

- Automated breast ultrasound with 3D mammography is the best
- Plan for retirement with your first paycheck

As the day ended, several KE's joined for a picture. We missed Joanne Barrick, Winnie Landis, and the Pi girls for the picture. We apologize to any others we missed.

All in all a great day to reconnect with Pi alums, Pi students, and Boiler pharmacy women. Hail Purdue!

Pictured L to R: Ann Zehner Angle, Cinda Zehner O'Connor, Brenda Acker, Brenda Drake, Theresa Staublin, Jayne McCliment and Jane Hammock.

Alumni Chapters and KE Alumni at large, we want to feature you in The Bond!

Alumni chapters, we want to highlight you in The Bond! Have you worked on a project with a local collegiate chapter? What events have you had lately?

We also want to highlight individual Alumni who hold leadership positions at pharmacy schools or within professional organizations, have received recognition or awards, or are doing amazing work advancing the profession of pharmacy. Feel free to suggest a friend or submit yourself for our next Alumni Spotlight!

Please submit all articles online via the [Bond Submission Form](https://ke.memberclicks.net/bond-submission-form) found here ke.memberclicks.net/bond-submission-form by December 1st to be included in the Spring 2019 issue of The Bond. Articles should be approximately 500 words and include images with captions and members names if available. Alumni, look forward to hearing from you!

RECRUITMENT

BY NIKKINA HANKINS

Recruitment and membership create the structure for your chapter's future. As the Grand Council Vice President of Membership Recruitment, I am your resource to help create a bonding membership recruitment experience. No matter if you schedule your membership process during the fall or spring semester, there are some great ideas and events that you can use to recruit members and create everlasting bonds. Recruitment should begin at the new student orientation. It is great to have some Kappa Epsilon (KE) brothers and sisters at these events. Depending on the dress code you can be subtle with your KE pin or you may be more noticeable with a KE shirt. Seeing members active and providing service to the school is the strongest way to make the chapter visible to impressionable students and it makes you visible from the first day forward. Some chapters have a Chapter Dress Up Day. One day each week or each month Kappa Epsilon sisters and brothers are dressed in their professional red, white, and black.

Most chapters have a membership director who schedules and organizes the recruitment events. As a former director, the best advice I can give you is "don't do it alone." Reach out to your chapter for assistance with organizing events; your previous membership director and most recent recruitment class can be great resources. If you have multiple events, ask each member to volunteer for at least one or two as this will help prevent burnout from not only you but also the other members. If your chapter does the Big Little experience, having current members involved with recruitment events helps to form bonds for the Big Little experience even before it officially starts.

Membership education begins the lifelong bond with Kappa Epsilon. The lessons and memories instilled in these moments will create each person's love and lifelong bond with KE. Here are some of the unique traditions from chapters across the nation. Host a KE week with 2-5 events hosted by the chapter. Your week can have a theme similar to a spirit week at school. Send special personalized invitations to first year students and other eligible students to your interest meeting. It is a great way to attract those people who thought they were unnoticed or on the fence about going to an info session about KE. Host a pancake breakfast for the first year students before a big exam. Your chapter can even use this as a fundraiser for Ovarian and Breast Cancer Awareness months. Events like these expose the entire the entire pharmacy school to our philanthropy while filling up their stomachs with pancakes. Whenever you are planning your events, do not forget to include your advisor and KE faculty members. KE is a lifelong bond so why limit yourself to only your active chapter members? If you have any alumni nearby, also use them as a resource during your recruitment events. Many chapters invite alumni to their interest meetings and social events as well.

No matter what your chapter plans for recruitment and membership, keep in mind why you joined KE. It could have been for friendship, networking, the profession of pharmacy, or just looking for a place to call home. Using those memories as the motivation for your recruitment events will lead to a successful membership class with sisters and brothers that exude the morals of Kappa Epsilon.

HISTORY TIDBITS

BY METTA LOU HENDERSON (SIGMA) PAST GRAND PRESIDENT

Honorary Members of Kappa Epsilon

Our Kappa Epsilon Bylaws (Article II Section 2(h)) defines an honorary member as an individual who has given distinguished service to the profession of pharmacy and/or Kappa Epsilon Fraternity. Section 3 (h) explains the procedure for the granting of honorary membership. A collegiate or alumni chapter, after approving the candidate by a two-thirds vote of chapter members in good standing, present, and voting, then submits information about the individual to Grand Council for their vote. The Grand Council vote must be unanimous and is reported back to the chapter who may then invite the candidate to membership. An honorary member may affiliate with any collegiate or alumni chapter and does not pay national dues. He or she cannot serve as a member of Grand Council, as a delegate to convention, or chair a national committee. This category of honorary member became a part of our bylaws during the 1953-1955 bylaws revision.

Kappa Epsilon has five honorary members. Thelma Morris Coburn was recommended by Phi Chapter and initiated in 1958. She was the Executive Secretary of the Alabama Pharmacy Association from 1938 to 1962 and possibly also served as Executive Secretary of the Alabama State Board of Pharmacy. She was inducted in the Alabama Pharmacy Hall of Fame in 2016. Dr. Mary Estelle Caldwell was recommended by Sigma Chapter and initiated in 1960. Although she was not a pharmacist, she was a

professor at The University of Arizona College of Pharmacy, after retiring as Chairman of the Department of Microbiology, and had accomplished many firsts for women in the health sciences. Ina Griffith Black was recommended by Alpha Beta Chapter and initiated in 1972. She was a faculty member at the University of Oklahoma. After serving as a community pharmacist, she served as a faculty member at Southwestern Oklahoma State University from 1961 until her retirement in 1972. Mary Munson Runge was recommended by Alpha Nu Chapter and initiated in 1978. She graduated from Xavier University prior to there being a KE chapter on that campus. Mary was the first woman and first African-American to become president of the American Pharmacist Association (APhA). Thelma Coburn, Mary Caldwell, Ina Black and Mary Runge are deceased. Marily Harper Rhudy was recommended by Grand Council and initiated in 1991. She was a prominent community pharmacist and second woman president of APhA. In 2004, she was the first woman Senior Vice President for Global Corporate Affairs at Wyeth Pharmaceuticals.

Do you know someone who has given distinguished service to the profession of pharmacy and/ or KE? Don't forget you or your chapters too can nominate eligible candidates!

Call for 2019–2021 Grand Council Nominations

Have you wanted to serve Kappa Epsilon on a national level? The slating process for Grand Council officers has begun and we are looking for passionate KE alumni to serve on Grand Council. Nominations should be submitted to the KE Members Website via the Grand Council Nomination Form by February 1, 2019. Please contact Immediate Past President, Sara Snow, with any questions at kepastpresident@gmail.com.

The positions to be slated prior to the 2019 National Convention and voted upon during Convention are:

President-elect

Grand Secretary

Vice President of Collegiate Development

Vice President of Alumni Development

Vice President of Financial Development

The position of Vice President of Member Recruitment shall be nominated from the floor at the 2019 National Convention in Charleston, South Carolina.

While thinking about your potential place on the 2019-2021 Kappa Epsilon Grand Council, consider the perspectives from the following distinguished KE alumni regarding how their time on Grand Council contributed to further establishing their KE Bond and helped provide skills that have contributed to the success of their careers:

“KE has opened so many personal and professional doors for me since being inducted into the Omicron Chapter in 1982 at the Philadelphia College of Pharmacy and Science. KE is a family well beyond my chapter of initiation. Like our own families do, KE provides a supportive structure to grow personally and professionally. It provides a network of professional contacts and friendships with KEs in so many different pharmacy roles and settings. Since my first convention in Scottsdale, AZ in 1985 until today, I have developed long, lasting friendships with so many KEs from around the country. These friendships were built through collegiate visitations, committee work, and attendance at our biennial conventions. It is these friendships and KE adventures that motivate me to continue to serve my fraternity and to attend our National Conventions to spend time and bond with my KE family who have enriched my life in countless ways.”

Lisa Braccini-Barletta, MBA, R.Ph.

Call for 2019–2021 Grand Council Nominations

"As Vice President of Collegiate Development, I learned a great deal about leadership. Specifically, I learned to communicate using various modalities and with various stakeholders. I learned to listen and not do all the talking. Through meetings with collegiates across campuses, faculty advisors, and university administrators, I was able to apply these skills to motivate, encourage, correct, and praise where necessary. I continue to use these skills daily in my practice, administrative roles, and teaching environments. In addition to communication, I learned to be a reflective leader. I take each interaction, particularly those that could be uncomfortable, and reflect on how the encounter went and how my behavior was portrayed. I have learned that others take their cue on behavior from me. If I am calm, yet firm to the task, others will be more willing to hear the message, which will lead to behavior change and mutual goals to get accomplished."

Cameron C. Lindsey, PharmD, BC-ADM, CDE, BCACP

*Director of Co-Curriculum, Professor of Pharmacy Practice & Administration
University of Missouri-Kansas City
KE GC VP Collegiate Development 2001-2003*

"As I began my pharmacy career, connections made through school and Kappa Epsilon served as the foundation of my professional network. Serving on KE Grand Council added a depth and strength to that network that would have taken decades to develop. In the era of social media, you can grow the numbers in your professional network with the click of a mouse. Ask yourself how many LinkedIn connections support you both professionally AND personally. Through my time as a leader in KE, I've developed a network of people who not only share a common professional connection, but who know when I need a boost personally as well."

Petra Schultz, PharmD

*Associate Health Officer
IBM Watson Health
KE GC Immediate Past President, 2005-2007
KE GC Grand President, 2003-2005
KE GC President-elect, 2001-2003
KE GC VP Collegiate Development, 1999-2001
KE GC VP Membership Recruitment, 1997-1999*

Awards Announcement

2018 Linda T. Rogers Award Winner

ANH TRAN

PharmD Candidate 2019

Chicago State University - College of Pharmacy

I can remember the moment I wanted to be a pharmacist. I was working at a small, suburban hospital and I recall being on rounds with a team that included a doctor, pharmacist, nurse, dietician, and a respiratory therapist. The doctor asked for input on medications and the pharmacist confidently offered his recommendations. I was impressed with how much he knew about medicine. I knew from that very moment that I wanted to make an impact like that pharmacist. I started to research undergraduate requirements, applied to pharmacy schools, and here I am, a fourth year student pharmacist on rotation on rotation looking forward to graduation.

As I reflect back on the past three years of pharmacy school, I can genuinely say that I have enjoyed my pharmacy school experience. Every experience (good and bad) has made me a better, wiser, and stronger person. I have acquired leadership skills through various organizations, maintained high scholastic academic achievement, and have also made everlasting friendships among classmates and Kappa Epsilon (KE).

I am truly honored to be the recipient of the Linda T. Rogers Award. The award will go towards taking my NAPLEX and MPJE as I know these exams are associated with a lot of fees. I also want to add that not only will the award help me financially, but it is also a great opportunity to expose KE values and more importantly, spreading awareness about breast cancer in honor of Linda Rogers. Our chapter, Beta Xi, is excited about this recognition.

Awards & Scholarships

Nominate your colleagues
for these prestigious awards.

KE/MERCK VANGUARD LEADERSHIP AWARD

Awarded to an exemplary alumni who has contributed both professionally and within their community. Nominations due October 15th annually.

CAREER ACHIEVEMENT AWARD

Active alumnus member noted for their professional accomplishments. Nominations due October 15th annually.

LINDA RODGERS MEMORIAL AWARD

Honors a KE member who exemplifies Linda's characteristics of leadership, dedication, diplomacy, friendship, and inspiration to others. \$200 award. Nominations due May 15th in odd years (Alumni) Nominations due May 15th in even years (Collegiate)

ZADA COOPER SCHOLARSHIPS

Recognizes superior achievement and is presented annually to active collegiate members. \$750 scholarship awarded. Applications due November 15th annually.

KE/AFPE NELLIE WAKEMAN FELLOWSHIP

Monetary award used to encourage members to pursue an advanced degree in a college of pharmacy graduate program. \$7500 award. Applications due February 1st annually.

FOUNDATION GRANTS

Provides members and chapters with incentive money for innovative educational projects in the profession of pharmacy. May apply anytime!
